

BLU5HD 5G

UHF Aerials

5 elements UHF band biconical aerial complete with F connector and grid reflectors.

Technical Chars

- Pre-assembled, quick-connect directors, radiator and reflectors on a slide already present on the cradle; **assembly** is completed **without** the use of any **tools**.
- Special care was taken in the choice of materials to achieve higher robustness.
- High gain, excellent impedance matching and excellent directivity.
- Innovative pole mount with zenith adjustment as standard and a knurled surface for optimum strength and hold to the pole, and a **butterfly nut** for **tightening without the need for any tools**.
- An LTE filter has been inserted into the radiator dipole to guarantee the quality of the distributed signal and to obtain excellent filtering of **5G and 4G interfering** signals in the LTE band (694-860 MHz) reserved for mobile telephony.
- White colour antenna.
