

IEAST® olio™ Streaming HiFi audio receiver

IEAST® olio™
Streaming HiFi audio receiver

Turn wired into wireless
Easily upgrade your best traditional speakers

What is olio?

olio is a small wireless Hi-Fi audio receiver that plugs into your speakers, decoders and amplifiers for streaming music through WiFi&Bluetooth.

Once set up, simply use your iPhone®, iPad®, Android phone and tablet, Mac® and Windows® laptop, to cast your favorite tunes to the **best sound system** in the house.

You can also control and play the songs you want through the voice function of Siri and Alexa.

Multi-room listening with better sound

Add more IEAST streaming devices in your home, connect your best speakers, place it in different rooms, and you'll be able to:

- Stand-alone mode: Stream different music in different rooms without interfering with each other;
- Partition mode: Partition or all speakers play songs synchronously, and enjoy them together.

Dynamic sampling rate Hi-Res audio output

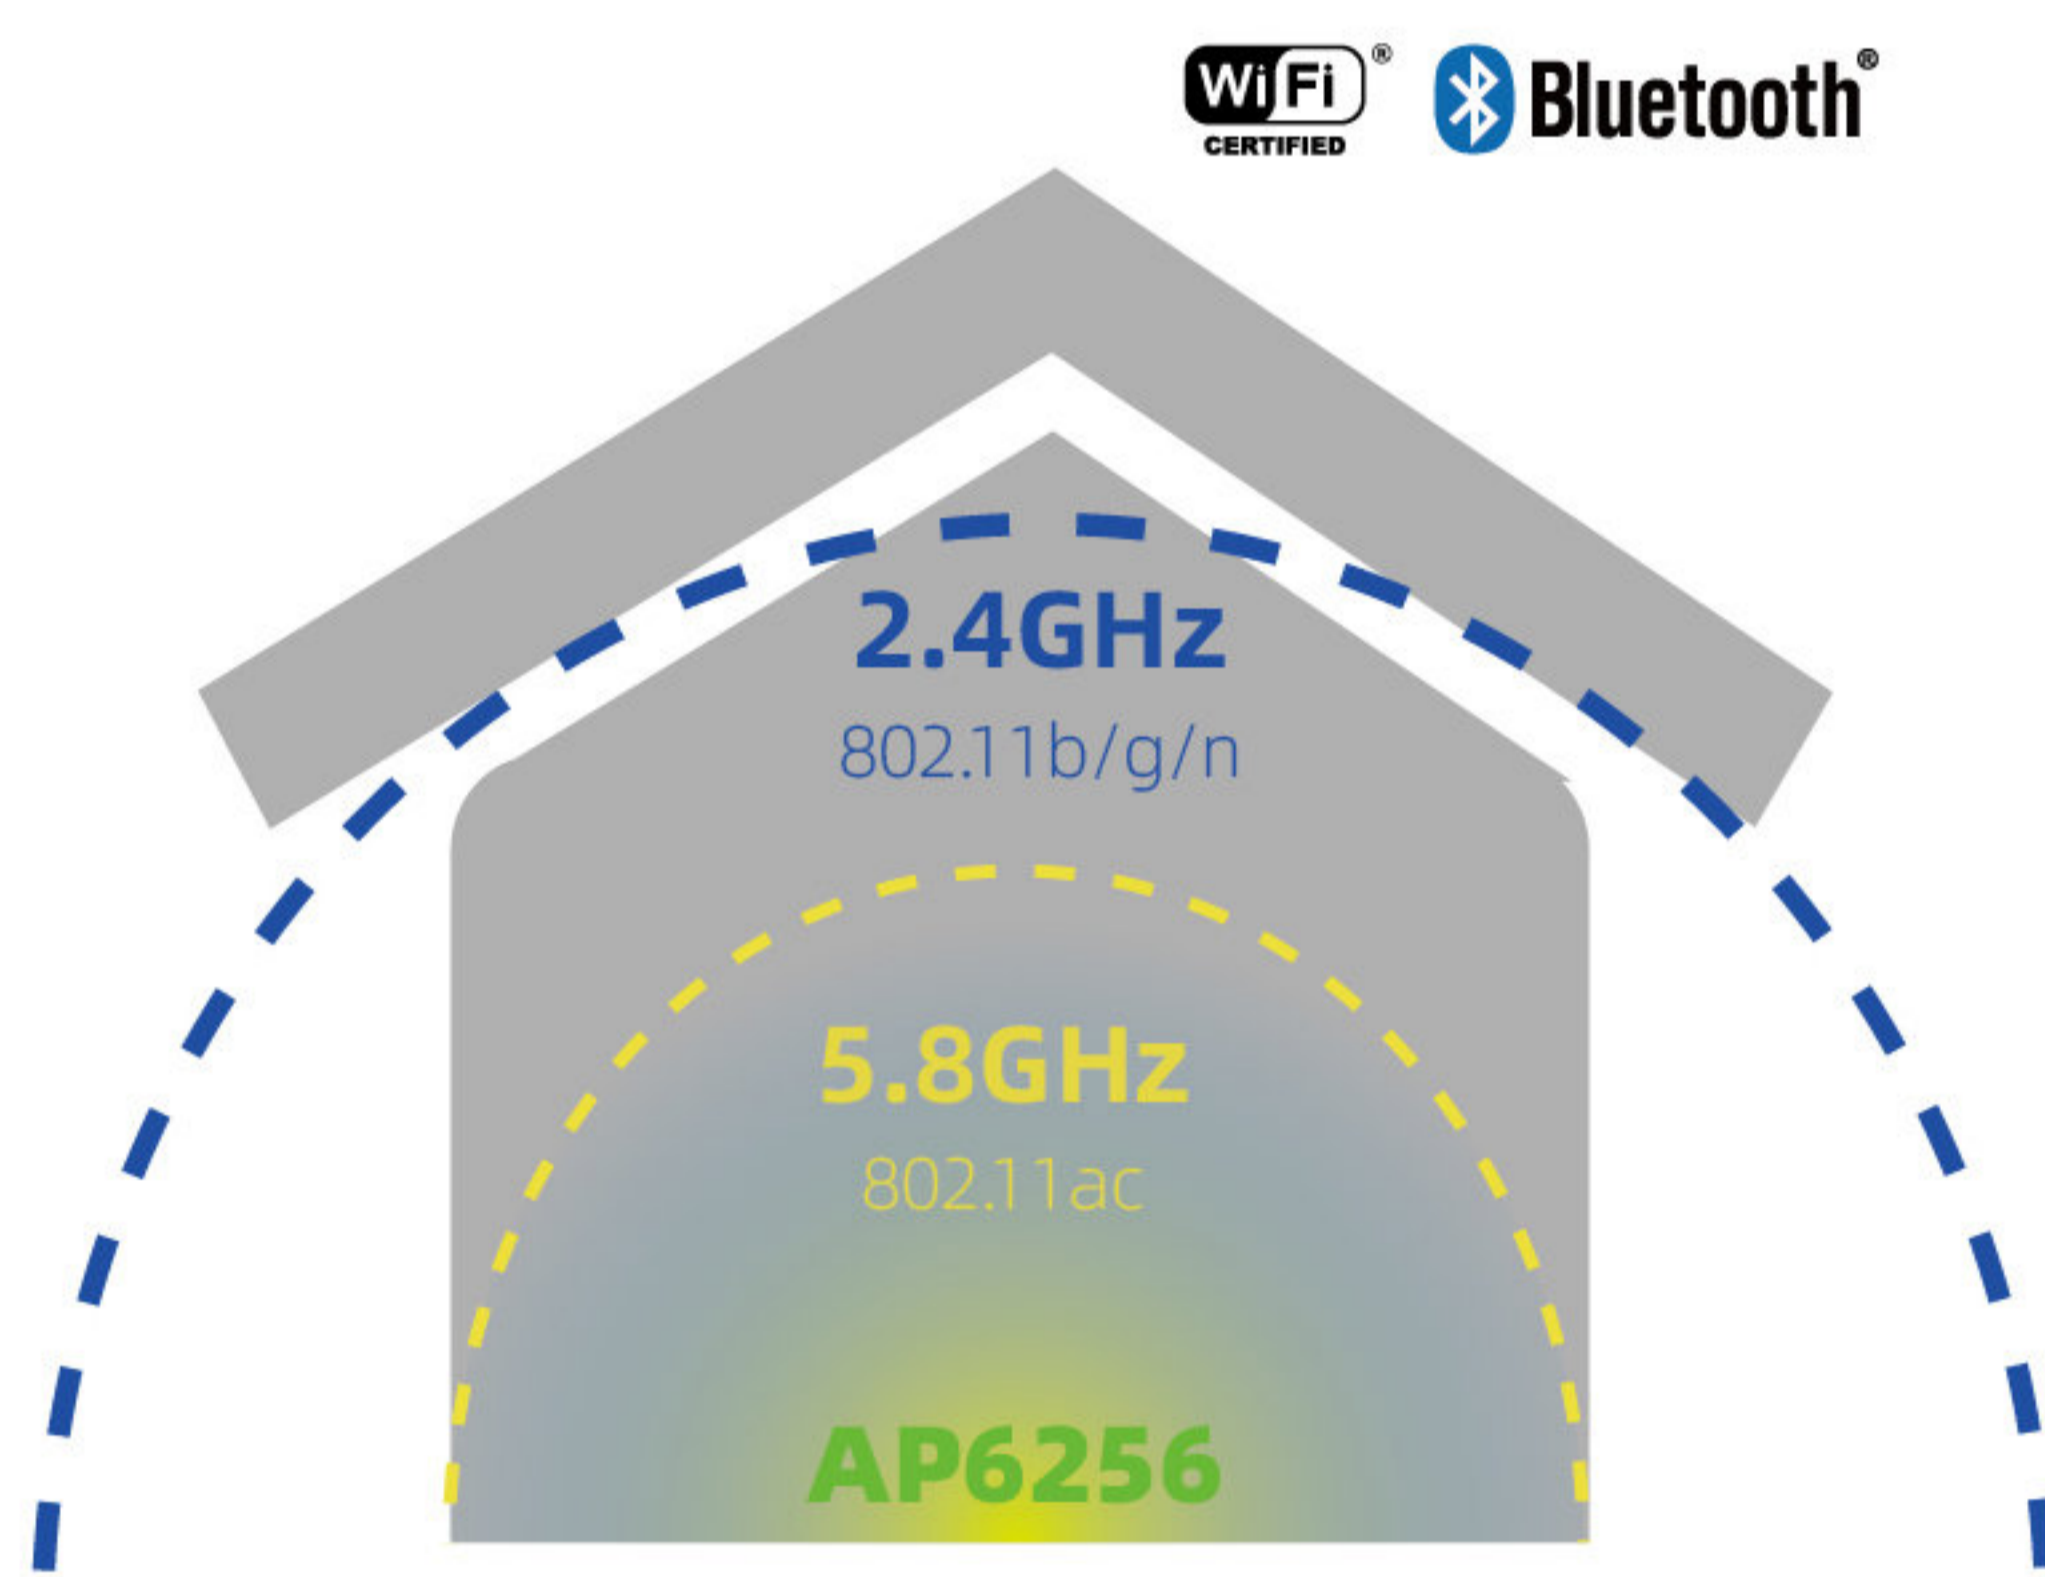

Supports stereo analog and optical digital outputs
Dynamically output data according to the current music stream sampling rate during optical digital output (up to 192kHz/24bit)
The analog output is decoded by TI's PCM5121 stereo DAC output, providing high-quality analog audio output with 108dB SNR, dynamic range and -92dB THD+N performance.

Note:
- IEAST app built-in integrated DEEZER, Qobuz, Hi-resCloud and NAS music services support dynamic sampling rate up to 192kHz/24bit.
- Airplay2/Spotify connect/TIDAL connect/DLAN streaming audio supports CD quality sample rate of 16-bit, 44100 Hz (441kHz) resolution.

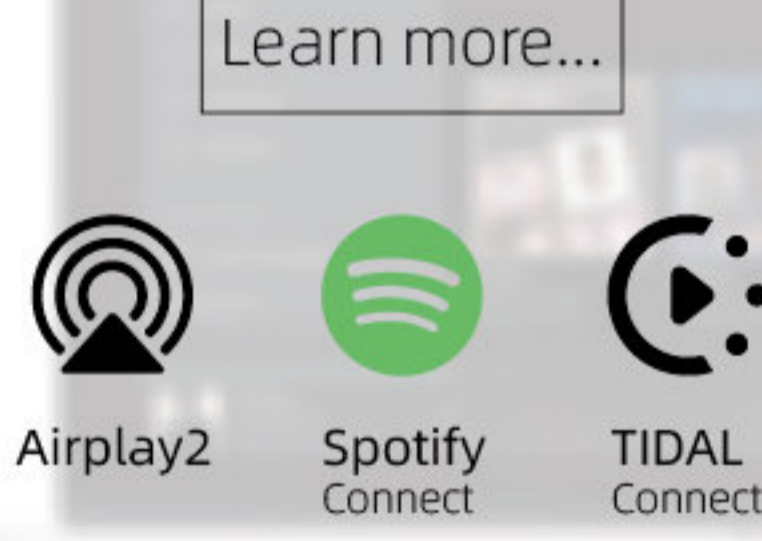

Dual-band Wi-Fi 5 Bluetooth 5.2 Dual connection

It supports 802.11b/g/n/ac dual-band Wi-Fi, providing a more stable and fast network connection rate. You can easily listen to online high-quality music, network radio and your local music collection by connecting to Wi-Fi. Bluetooth connection is supported. olio has passed rigorous testing and is certified by the Wi-Fi Alliance and Bluetooth SIG organizations.

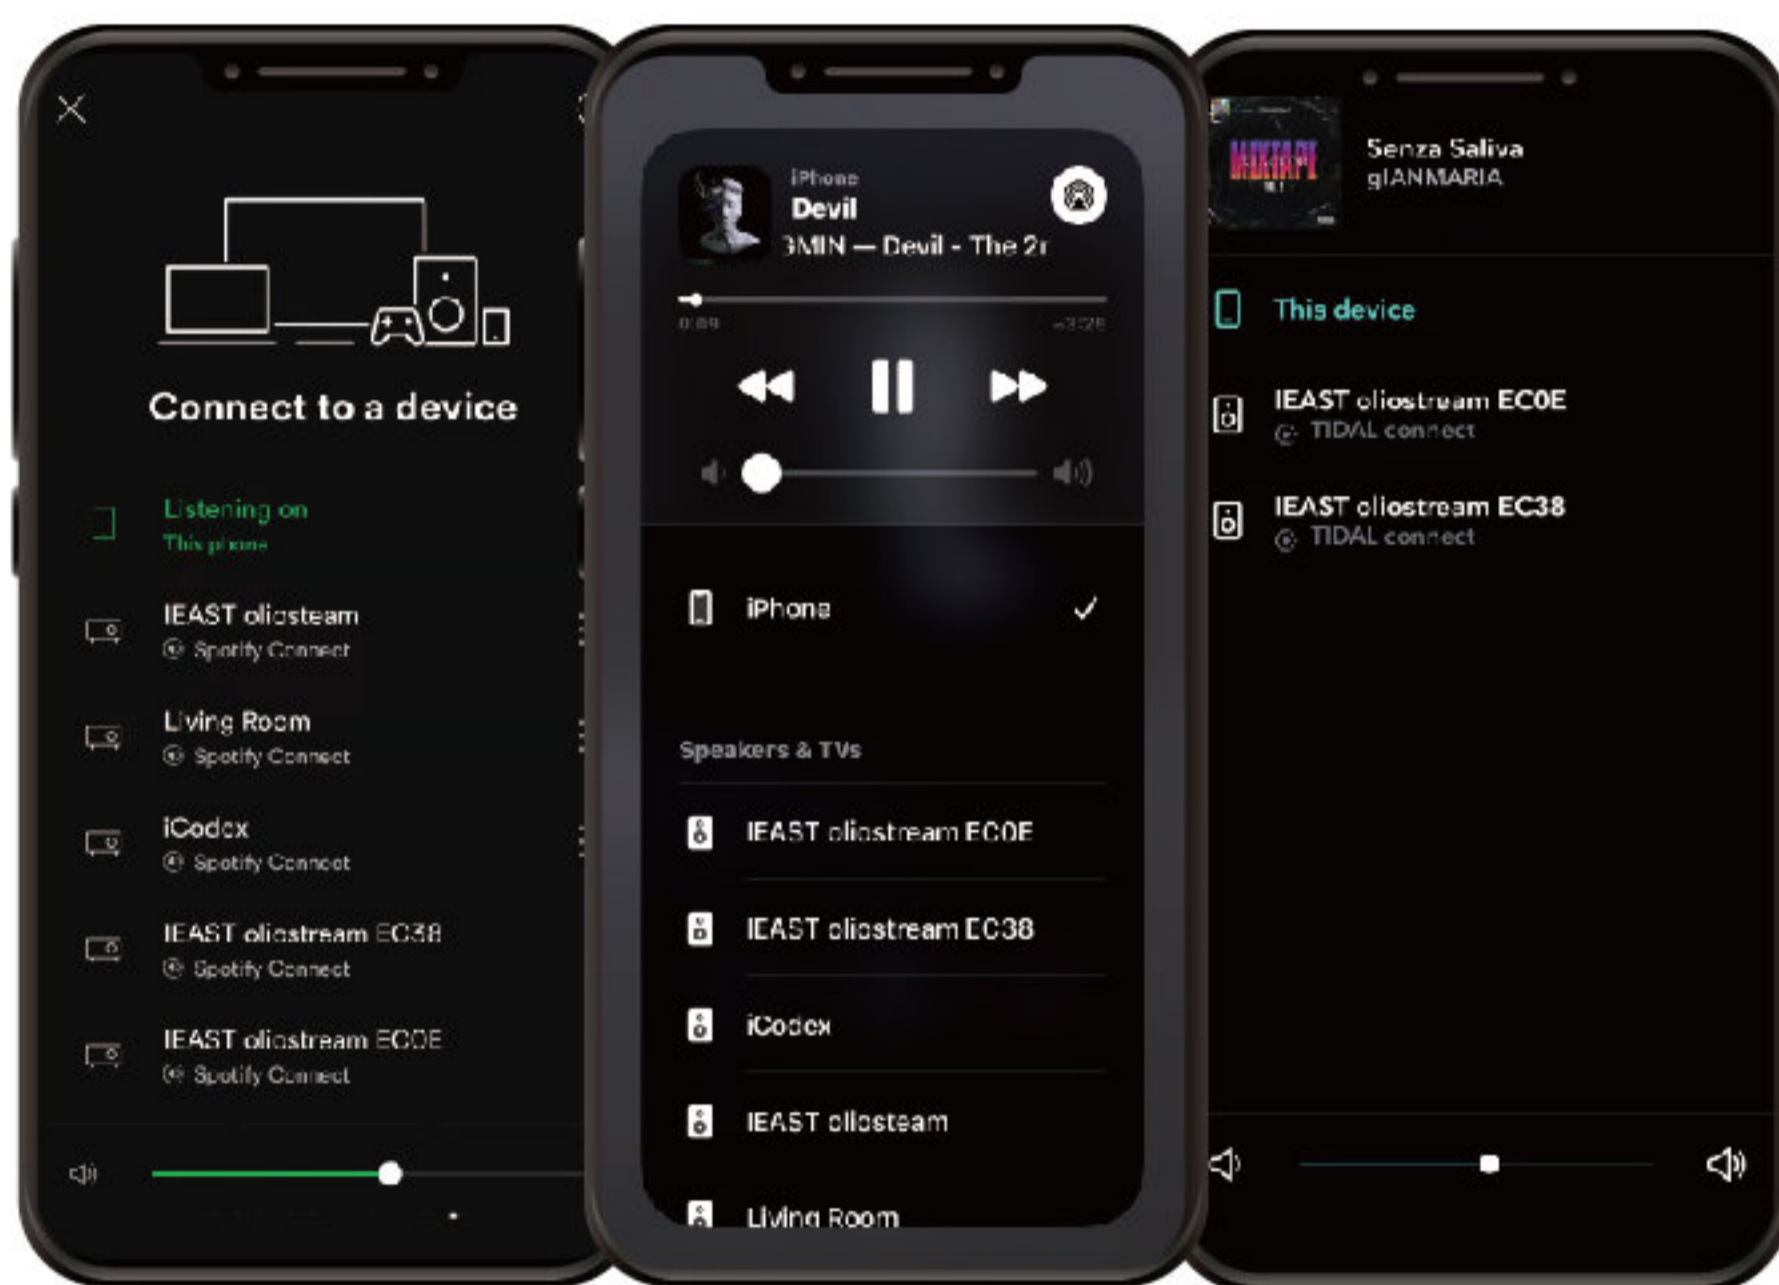

Supports mainstream streaming protocols

Officially certified, rich music resources for you to choose from.

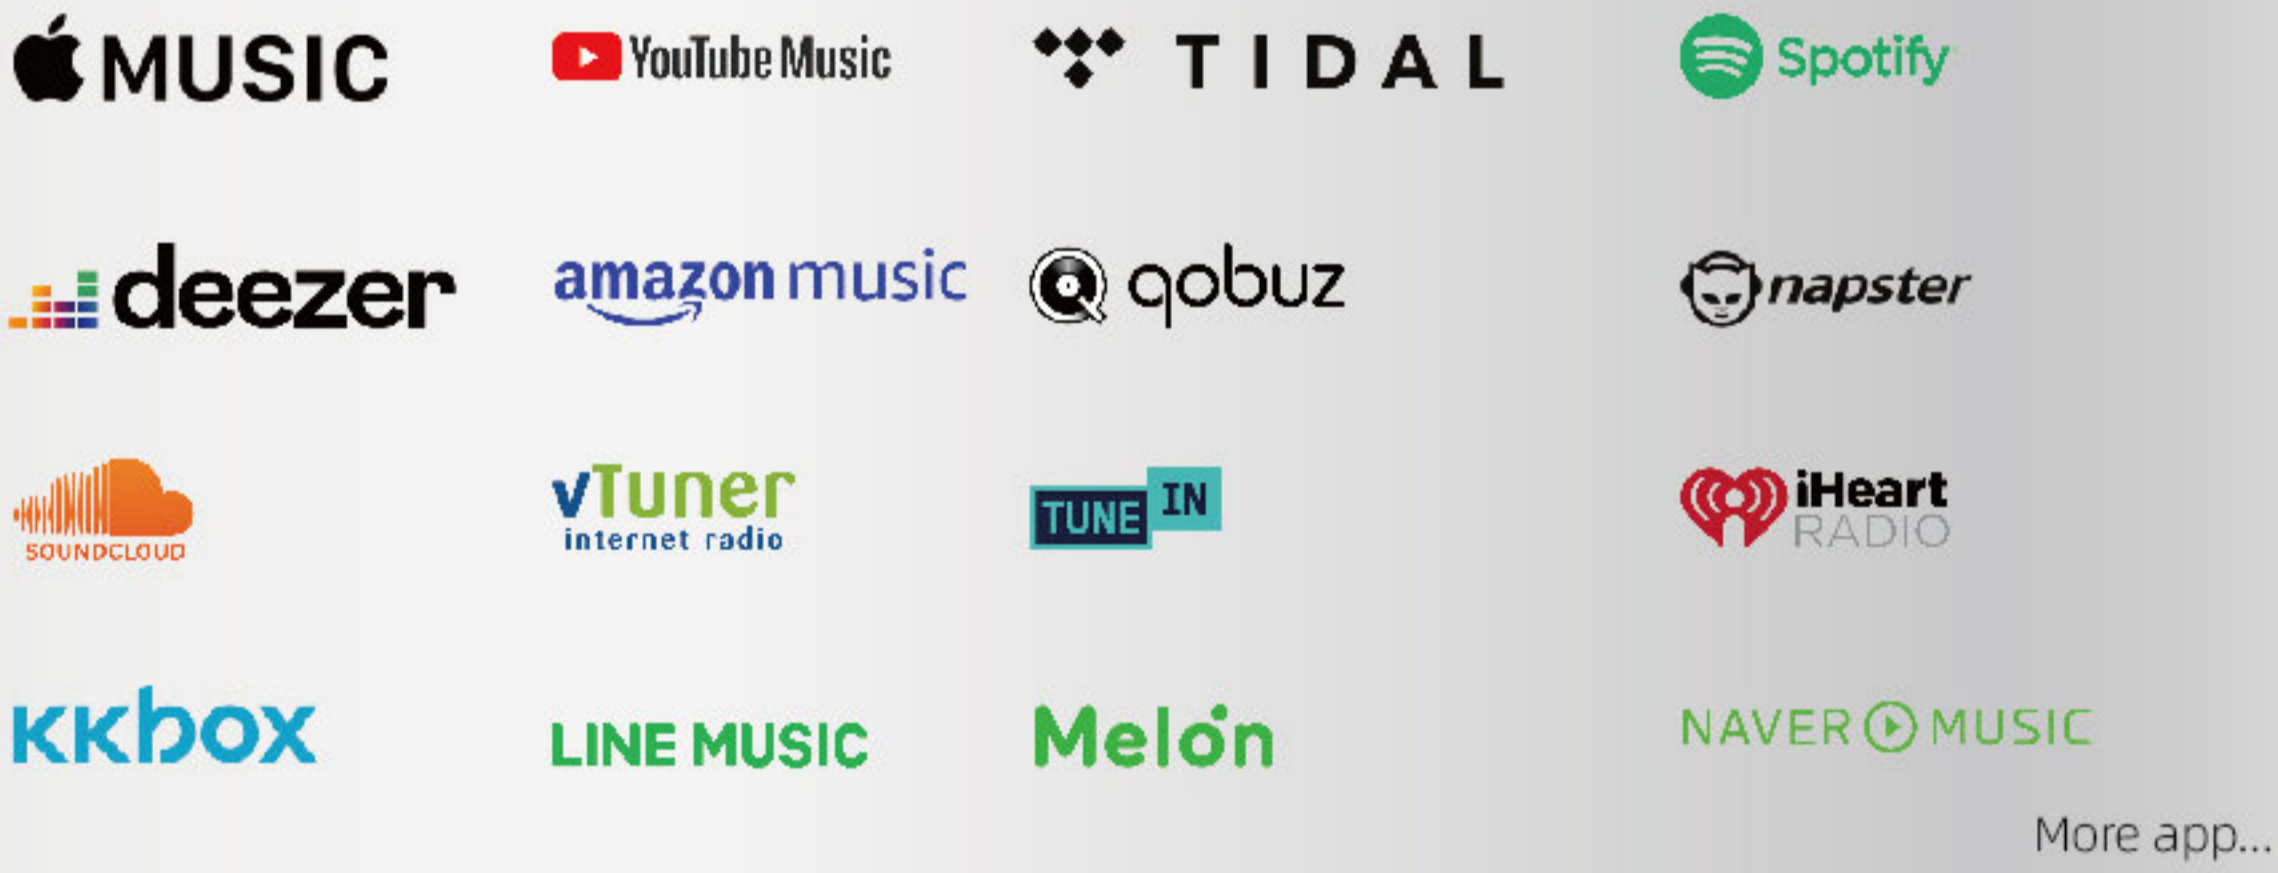

IEAST olio supports AirPlay2 and requires iOS 11.4 or later. Our audio receiver with AirPlay2 supports CD-quality sample rates of 16-bit, 44100 Hz (44.1kHz) resolution.

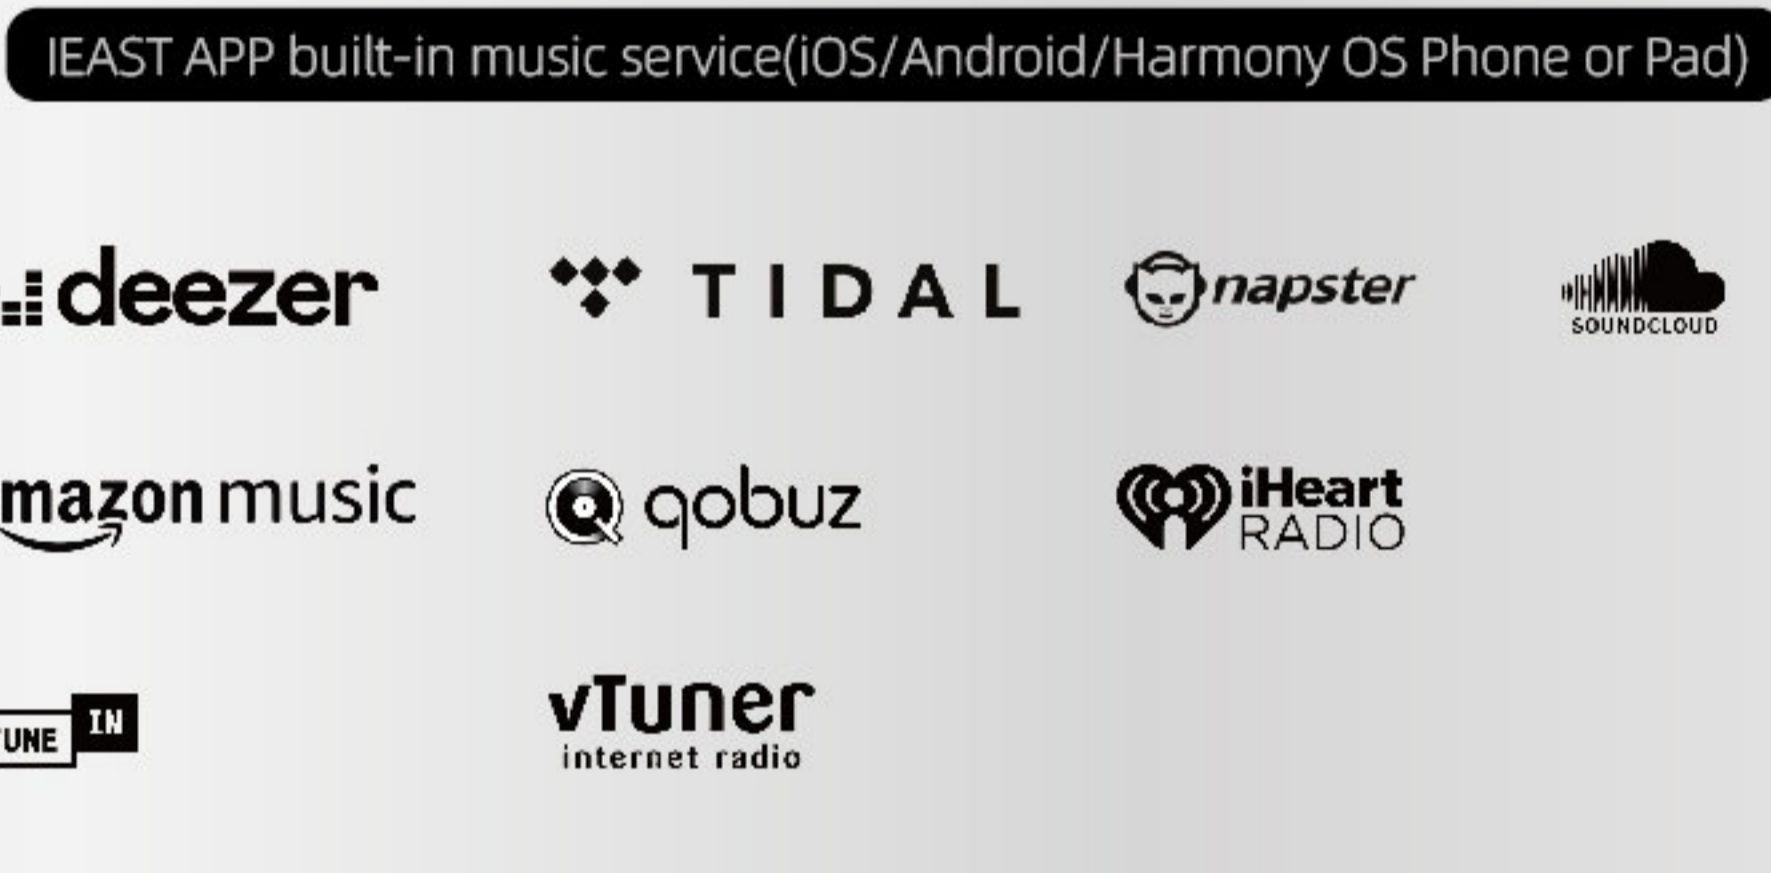

Enjoy tons of music

Supports many music services
