

TMS 5 x 24 Cascade Multiswitch with Earth Bars

Article No.318629
(UK version)

Cascade multiswitch range for 1 Satellite position with 5 inputs and 5 trunk outputs, suitable for distributing satellite and terrestrial signals in small to large sized systems. Available with 8 to 32 subscriber outputs and powered by the TMS PSU external power supply either directly or via the SAT trunk lines.

The TMS 5 C series offers excellent performance and flexibility, with a compact design for installations even in confined spaces.
